WINDSHIELD CERAMIC COATING

Drastically improve visibility in rain with our super-hydrophobic windshield coating. Water beads and flies off the glass, reducing the need for wipers at speed and making your drive safer and less strenuous.

ALLOY CERAMIC COATING

Your wheels face the harshest conditions. This high-temperature resistant ceramic coating repels brake dust, tar, and road grime, making them incredibly easy to clean and protecting their finish.

LEATHER CERAMIC COATING

Protect your interior from life's mishaps. Our specialized coatings create an invisible barrier on leather and fabric surfaces that repels liquids, prevents dye transfer from clothing, and blocks UV rays to stop fading and cracking.

ADVANCED
**PRE
CUT**
PPF

We use our advanced Pre-Cut PPF technology for unmatched precision and safety. By digitally cutting the film to your car's exact specifications before installation, we guarantee a perfect fit while ensuring no blades ever touch your vehicle's paint. This eliminates the risk of scratches, delivering a safer, flawless, and truly seamless finish.

FAQ

UNLAYR
INVISIBLE . INVINCIBLE . ICONIC

FREQUENTLY ASKED QUESTIONS WHAT IT BRINGS TO YOUR CAR

1. WHAT IS PAINT PROTECTION FILM (PPF)?

PPF is a transparent, high-performance film that safeguards your car's paint from scratches, stone chips, UV rays, and everyday wear.

2. HOW LONG DOES PPF LAST?

Our premium TPU-based films typically last 5-10 years with proper care and come with a manufacturer-backed warranty.

3. DOES PPF AFFECT THE LOOK OF MY CAR?

No. PPF enhances your car's finish by adding depth and gloss while remaining virtually invisible. Matte finishes are also available.

4. HOW DO I MAINTAIN MY CAR AFTER PPF?

Wash with a pH-neutral shampoo, avoid abrasive sponges, and dry with microfiber towels. Regular detailing keeps the film looking new.

5. IS THERE A WARRANTY?

Yes. All UNLAYR PPF installations come with a written warranty covering yellowing, bubbling, peeling, and cracking under normal use.

6. WHEN IS THE WARRANTY NOT VALID?

The warranty does not cover damage caused by accidents, improper maintenance, third-party removal, or installation on repainted panels. For the best results, PPF should only be applied on factory paint.
